PROFILE

Final-year BSc (Hons) Information Technology undergraduate with hands-on experience in IT Operations, Digital Infrastructure, and System Support. Currently gaining practical exposure in hardware and software maintenance, user and asset management (ManageEngine), and ticket handling via SummitAI and ServiceNow. Previously worked as a Training IT Operations & Help Desk Analyst at Bank of Ceylon. Strong foundation in programming, databases, and web technologies, seeking to grow in IT Infrastructure and Operations roles.

WORK EXPERIENCE

Intern - Managed Infrastructure Services | MillenniumIT ESP | (Service Desk Coordinator | BDO Project)

May 2026 – Present

- Supported Engineers to provide 24/7 technical support for critical systems, ensuring minimal downtime.
- Managed incidents and service requests through ServiceNow ticketing system.
- Assigned tickets to suitable support groups and coordinated escalations effectively.
- Communicated with clients and provided timely updates through the ticketing system.
- Collaborated with engineers and cross-functional teams to resolve issues efficiently.

Intern - Digital Infrastructure | MillenniumIT ESP

November 2025 – Present

- Installed and configured printers and peripheral devices across the organization.
- Set up and configured new laptops and desktops for end users.
- Performed hardware troubleshooting and component-level laptop repairs (excluding motherboard-level circuit repairs).
- Diagnosed and replaced faulty components such as RAM, SSDs, batteries, keyboards, and other internal parts.
- Performed software installation and configuration based on organizational requirements (MS 365, Sentinel One, FortiClient VPN).
- Executed OS deployment using ManageEngine for efficient system provisioning.
- Performed basic Active Directory (AD) administrative tasks: password resets, unlocking user accounts, removing duplicate/inactive computer objects.
- Resolved BitLocker encryption issues using recovery keys through ManageEngine.
- Provided remote technical support and resolved incidents through SummitAI ticketing system.

Trainee IT Operations & Help Desk Analyst | Bank of Ceylon

May 2025 – November 2025

- Troubleshoot and resolved system issues across branch IT systems, ensuring smooth daily operations.
- Set up and configured new PCs, including IP assignment, and adding devices to the bank domain.
- Diagnosed and fixed hardware issues such as printers, PCs, and peripheral devices.
- Managed ITSM support portal to log, track, and resolve incidents and service requests.
- Installed and configured required software applications on user PCs.
- Created and maintained user profiles, including password resets, unlocking accounts, and provisioning temporary admin access.
- Provided remote and phone-based support to branches, identifying issues, and delivering effective solutions.
- Collaborated with teams to maintain IT infrastructure reliability and enhance system performance.

TECHNICAL SKILLS

IT Operations	IT Operations & Infrastructure, Hardware & Software Maintenance, Remote Support & Troubleshooting
Systems & Tools	ManageEngine, SummitAI, ServiceNow, Active Directory, BitLocker, FortiClient VPN, Sentinel One, MS 365
Networking	Domain & IP Configuration, User Account Management, Asset Management

Programming	C, C++, Python, Java, JavaScript, Kotlin
Web Development	HTML, CSS, JavaScript, PHP, Laravel, MERN Stack (MongoDB, Express.js, React.js, Node.js), Postman
Databases	MySQL, MongoDB
Project Tools	Trello, Microsoft Project

EDUCATION

BSc (Hons) in Information Technology | Sri Lanka Institute of Information Technology (SLIIT)

2022 – Present | Specializing in Information Technology

Aquinas Diploma in English | BCI Campus

Level 3 Completed | March 2022 – September 2022

A/L Examination (Commerce Stream) | Ch/ Medagama Abhaya M.V

2021 | 1 'B' pass, 1 'C' pass, 1 'S' pass

UNDERGRADUATE PROJECTS

Online Gem & Jewelry Management System | July 2024 – October 2024

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed the Supplier Management System with features for placing supply orders and managing supplier details.
- Ensured scalability and reliability in supplier data storage and retrieval processes.

Daily Planner Pro & Coffee Shop App (Android Studio) | July 2024 – October 2024

Technologies: Kotlin, Internal Storage

- Designed and implemented user-friendly interfaces for task management and productivity.
- Developed database interactions for task storage and retrieval, integrated notification features for reminders.
- Built interactive menu and ordering system for coffee shop with inventory tracking UI.

Vehicle Rental System | March 2024 – May 2024

Technologies: Java, MySQL

- Developed the Driver Management System, managing driver assignments, availability, and details.
- Implemented back-end logic for efficient driver scheduling and integrated with other rental subsystems.

Online Voting System for Reality Shows | July 2023 – November 2023

Technologies: HTML, CSS, PHP, JavaScript

- Built the Voter Management System using PHP with full CRUD operations for voter registration, updates, and deletions.
- Ensured secure data handling and designed user-friendly interfaces for both voters and administrators.

CERTIFICATIONS

Web Design for Beginners

Centre for Open and Distance Learning (CODL), University of Moratuwa, Sri Lanka | 2022
